About Rishi

Private Tutor, catering to your needs.

I have graduated from City University of London having studied Maths and Computer Science. I have been tutoring for over 7 years and my last academic pass rate was 100% with students achieving Grade 6 and higher. I believe in simplifying and structuring seemingly complex and overwhelming tasks, approaching them in a way that demystifies the learning process and empowers the student.

I feel strongly that learning should be enjoyable whilst building confidence, accomplishment and self-esteem, as well as teaching self-discipline and self-motivation. I've been tutoring a long time so I'm quick to identify problems, and ways to solve them. Likewise I take care to look

at what they're already doing right and praise good work fulsomely. I get on well with my students because I treat them with the same respect as I would an adult. The top schools are looking for pupils who are both interested and interesting, and I try to show them that those things are one and the same.

£60.00 per hour

I advocate a Socratic approach to learning – one in which the teacher leads through questioning, encouraging the student to use their own mind to seek answers and find solutions. As such, I believe in a flexible teaching approach that is sensitive to each individual's needs, strengths/weaknesses and personal goals.

I believe in simplifying and structuring seemingly complex and overwhelming tasks, approaching them in a way that demystifies the learning process and empowers the student. I specialise in teaching Mathematics and English ensuring that your child achieves their goals quickly and efficiently realising their full potential.

Experience:

Over the 6 years I have tutored, I have amassed over 3500 hours of one to one tuition. I am comfortable tutoring people of all ages, and have experience with age ranges from young children of 6 and 7 to university undergraduates.

In regards to the subjects I teach, they are as follows:

KS3: Mathematics and Science
All Exam Boards

GCSE: Mathematics, Physics, Chemistry, Biology, Geography
Edexcel, OCR, iGCSE and AQA

A Level: Mathematics and Physics
Edexcel, OCR, AQA and IB

11+

I have coached students into Mill hill, QE boys, Dulwich College: Slough Consortium, St Pauls, Haberdasher, Hampton School, Latymer. I teach interview technique, verbal and nonverbal reasoning, Maths, English composition and comprehension.

Hourly rate: **£60.00**

Type of tutoring: **In-person and Online**

Also available for tuition at their address in London

Excellent Tutor

Written by Raj S

I wanted to find the best tutor for my son and came across Rishi who looked like he was ready for a challenge. My son who was the lowest performing in his class is now in one of the top sets in his entire year group thanks to Rishi. His method of teaching and interaction with my son was significant towards his progress not only in school but outside of school. His most recent parents evening was outstanding as teachers stated that he had moved up two reading levels which was astonishing.

Overall he is a great tutor and lives nearby, very flexible and most importantly, he makes the lesson fun.

Subject: English

Outcome: He achieved his goals of becoming more confident at reading, writing and descriptive writing.

Life changing experience

Written by Navjoyt P

Rishi worked 1:1 with my nephew who suffers from dyslexia for the past three years. We were told by numerous teachers and support workers that he would not be able to get a place in a grammar school due to his low scores. However, Rishi's unique way of teaching and practical skills allowed my nephew to gain the confidence he needs to achieve high! Rishi has great knowledge about the examination board and experience when it comes to 11+ exams.

Subject: 11 Plus

Outcome: My nephew now attends a grammar school, I can't thank Rishi enough for his ongoing support!

A perfect tutor

Written by A B

When we first met Rishi, we weren't sure if someone as young as him would be focused enough to take our son through the difficult journey of 11Plus and help deliver an outcome which we, like every parent, desired. Whilst Rishi's technique and dedication helped our son achieve a positive outcome, he also helped boost our son's self esteem and take his confidence to the next level. He remained very sanguine throughout the course and altered his methods of tutoring according to the needs of our son. We consider Rishi as someone who is a perfect tutor and in essence, was godsend. We thank Rishi for all his help, hardwork and would recommend him to every parent, not only for 11Plus but also for general tuitions.

Subject: 11 Plus

Outcome: As expected, positive results were achieved.

Outstanding Tutor

Written by Dee S

I would not hesitate to recommend Rishi to any parent looking for an outstanding tutor. He is calm, firm and knows how to get the children engaged, and the desire to learn. Thanks to him my children have learnt techniques that have been valuable to their education.

Subject: English

Outcome: My son achieved great grades to allow him to do the subjects he wanted to continue with. We continue this year for Rishi to work with my other son for the second year.

Highly Recommended Tutor!

Written by Tara G

Rishi has been tutoring my daughter for over 1 year, preparing her for her GCSE's. The subjects he covered were Maths, English and Science. At the beginning she was easily distracted but with the learning techniques Rishi used, he simplified complex overwhelming tasks, helping her break them down into manageable steps. He was able to adapt to her understanding and learning habits, making sure that she feels more confident than she did in the previous lesson. She now feels that she can confidently structure her paragraphs and cover all necessary points to achieve the highest mark possible. For Maths and Science, she is more confident and enthusiastic about what she studies, finally reaching her milestone of achieving a grade 6.

Subject: English

Outcome: The outcome was a grade 8 in all subjects. I would definitely recommend Rishi for his outstanding efforts in pushing my daughter further.

Rishi the tutition teacher

Written by Uzma F

Rishi is an absolute amazing teacher and taught my daughter at gcse level. His way of teaching by asking questions to extend learning and also giving homework which were topic summary mindmaps was an excellent way to teach. He also brought test material and was well prepared when coming to the lessons. My daughter also appreciates that when she did not understand a certain topic, he would help by providing a step to step flowchart to make it easier for her to understand. All in all I highly recommend Rishi as he is a fantastic teacher.

Subject: Maths and Science

Outcome: My daughter achieved grade 7 in maths and grades 8s and 9s in biology, chemistry and physics.

★★★★★ **Terrific tutor!!!**

Written by Tejinder T

Rishi conducts himself in a very professional manner. Our child always felt at ease in regards to asking any questions or issues he had whilst studying for his GCSE's. With Rishi's tuition, technique and homework material we felt it increased our child's confidence in reaching his maximum ability.

Subject: Maths and Science

Outcome: More confidence in our child to reach a higher level which led him on to the next stage of his further education.

★★★★★ **Amazing tutor**

Written by Tayyab K

Subject: ICT

Level: A Level

Rishi covered exam techniques by giving past paper questions along with the way each type of question should be answered. For shorter questions, they had a basic format. For longer questions, Rishi covered them by allowing me to state my points and then adding anything further that could be written too. If I had any questions, he would give hints to make me think more. If I really couldn't answer a question, he would explain it with great detail. Towards the exam season, Rishi and I would go through past papers together, which was a good approach as I was able to understand a more variety of questions.

Homework given:

Starting off, the homework was simply to read the ICT book and making notes as well as diagrams. On top of those, he would also urge me to make flashcards with one side having a question and the other side having the answer. As it got closer to the exams, I did 1 or 2 past papers for homework.

Rishi's teaching approach is very friendly and informative. He encourages you to ask questions, which showed to me Rishi was really engaged in lessons.

Highly Recommended! Change for the better.

Written by Savraj G

GCSE - English, Mathematics and Science.

Rishi has been teaching me for over 5 years and I never thought I would become the person I am today. I feel privileged to have him as tutor. My grades were at a very low level and I would struggle in my core subjects. As Rishi started tutoring me, I became more confident and saw a change in my self-esteem, learning how to structure and organise my work. As of my latest interim report my teachers have seen a significant change in both my behaviour and my concentration in class. I am now on par with achieving grades 8 and 9 in English, Maths and Science. I cannot thank Rishi enough for his dedication and determination in helping me to change for the better.

Subject: Science

Outcome: I am now able to structure essays well in English, remember formulas for complex functions in Maths and able to complete topic tests confidently and in timed conditions.
Predicted grades are 8s and 9s

Website

Written by Azzin C

Rishi is a wonderful Computer Science Tutor. I came to him when I was stuck on a project at University and as I was in my final year, he was able to tailor all lessons to me and help create a website using Javascript, Java, PHP and SQL. The task was completed in perfect order and Rishi was helping me every step of the way, explaining the code and what it does. I would definitely recommend Rishi to help in any Computer Science related work you may struggle with.

★★★★★ Python Computer Science

Written by Augustin D

Rishi is a good teacher and is always very well prepared with sheets and notes before the lesson. He is helpful and really helps me understand everything well.

Subject: Computer Science

Outcome: Better understanding and clear application of concepts.

★★★★★ Great Maths tutor

Written by Anne F

Since being tutored by Rishi, my daughter has become so much more confident in her maths. Rishi is patient, adapts to her learning style and is always well prepared with lessons and homework.

Subject: Maths

Outcome: .

★★★★★ Tutoring at its best

Written by Gloria K

Initially, we called Rishi for English tutoring, however, he was able to assist my daughter in other subjects such as Science and Maths. This was very useful as I was considering getting another tutor. He was able to adapt to her understanding and learning habits, making sure that she feels more confident than she did in the previous lesson. She now feels that she can confidently structure her paragraphs and cover all necessary points to achieve the highest mark possible.

Outcome: My daughter getting the highest grades possible in the subjects Rishi tutored her in.

★★★★★ Great Tutor

Written by Arti S

Rishi taught my daughter 11+ online for a short period of time. During this time I saw her confidence grow in both Maths and English, especially English in which she needed the extra support. Great tutor who made the learning fun, great way to teach to keep the motivation going!

Subject: 11 Plus

Outcome: Great tutoring

★★★★★ **Phenomenal Tutor! Highly Recommend!!**

Written by Leonardo S

With just 12 months of tutoring my son achieved an A grade in A-Level Computer Science.

Leading 12 months to the exams we were told by my son's school that he does not stand a chance of passing Computer Science.

Rishi came to the rescue and I can't ever thank him enough. We were desperate for a pass. With COVID-19 over our heads, we never thought he would walk away with an A grade.

He has not only been a tutor but a great mentor as well. He helped him build his confidence, motivate him and been inspirational. I have seen his coding confidence improve significantly.

We wish we had found him sooner. Will be in touch again for my younger son's English A-levels soon.

You are a star! Thank you
