About Rishi

I am a City University of London Graduate specialising in Mathematics, English, Science and Computer Science. I am passionate about learning and create a nurturing, stimulating, fun and warm environment for my students. It's important to me that they feel confident and relaxed, and be unafraid to take risks and make mistakes. Each child I work with is an individual and I pay attention to their personalities and learning habits, making sure they receive exactly the kind of support and encouragement they need to do their very best.

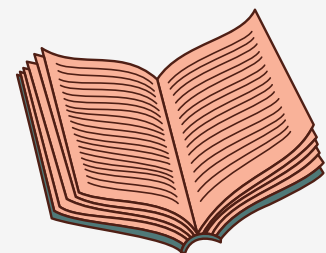

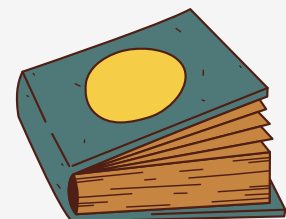

I feel strongly that learning should be enjoyable whilst building confidence, accomplishment and self-esteem, as well as teaching self-discipline and self-motivation. I aim to have some sort of commonality with the student because that's usually what can bring that communication together. I am a passionate educator who can transmit information in an engaging and creative way, bespoke to a child's learning style and interests.

My Approach to Tutoring

My teaching style is simplicity above all, and I take a lot of inspiration from the quote "If you can't explain it simply, you don't understand it well enough". My primary focus is to foster a love of learning in the pupils I support and arm them with the learning tools and strategies to flourish independently, without creating a dependence on myself. Building confidence, resilience and a 'can-do attitude' is at the heart of my tutoring philosophy.

Experience:

Over the 9 years I have tutored, I have amassed over 9,000 hours of one to one tuition. I am comfortable tutoring people of all ages, and have experience with age ranges from young children of 6 and 7 to university undergraduates.

In regards to the subjects I teach, they are as follows:

KS3: All Exam Boards

GCSE: Edexcel, OCR, AQA, Cambridge International, WJEC

A Level: Edexcel, OCR, AQA.

Eleven Plus: CEM, GL, I have coached students into the following schools:

Mill hill	Sutton Grammar
QE boys	John Lyon
Dulwich College	Merchants Taylor
Slough Consortium	Kew House School
St Pauls	Notting hill and Ealing
Haberdasher	Wilson's Grammar School
Hampton School	City of London
Latymer	

I also teach interview techniques, Verbal and Non-Verbal reasoning, Maths, English composition and comprehension.

Testimonials

Written by Azzin C

“Rishi is a wonderful Computer Science Tutor. I came to him when I was stuck on a project at University and as I was in my final year, he was able to tailor all lessons to me and help create a website using Javascript, PHP and SQL. The task was completed in perfect order and Rishi was helping me every step of the way, explaining the code and what it does. I would definitely recommend Rishi to help in any Computer Science related work you may struggle with.”

Subject: Computer Science

Outcome: First in my JavaScript module.

Written by Uzma F

“Rishi is an absolute amazing teacher and taught my daughter at GCSE level. His way of teaching by asking questions to extend learning and also giving homework which were topic summary mind-maps was an excellent way to teach. He also brought exam material and was well prepared when coming to the lessons. My daughter also appreciates that when she did not understand a certain topic, he would help by providing a step by step flowchart to make it easier for her to understand. All in all I highly recommend Rishi as he is a fantastic Science teacher.”

Subject: Maths and Science

Outcome: My daughter achieved a grade 7 in Maths and grade 9s in Biology, Chemistry and Physics.

Written by A B

“When we first met Rishi, we weren't sure if someone as young as him would be focused enough to take our son through the difficult journey of 11 Plus and help deliver an outcome which we, like every parent, desired. Whilst Rishi's technique and dedication helped our son achieve a positive outcome, he also helped boost our son's self esteem and take his confidence to the next level. He remained very sanguine throughout the course and altered his methods of tutoring according to the needs of our son. We consider Rishi as someone who is a perfect tutor and in essence, was godsend. We thank Rishi for all his help, hardwork and would recommend him to every parent, not only for 11 Plus but also for general tuitions.”

Subject: 11 Plus

Outcome: As expected, positive results were achieved.

Written by Gloria K

“Initially, we called Rishi for English tutoring, however, he was able to assist my daughter in other subjects such as Science and Maths. This was very useful as I was considering getting another tutor. He was able to adapt to her understanding and learning habits, making sure that she feels more confident than she did in the previous lesson. She now feels that she can confidently structure her paragraphs and cover all necessary points to achieve the highest mark possible.”

Subject: English

Outcome: My daughter getting the highest grades

Written by Amara W

“Rishi worked 1:1 with my son who suffers from dyslexia for the past three years. We were told by numerous teachers and support workers that he would not be able to get a place in a grammar school due to his current grades. However, Rishi's unique way of teaching and practical skills allowed my son to gain the confidence he needs to achieve high! Rishi has great knowledge about the examination board and experience when it comes to 11 + exams.”

Subject: 11 Plus

Outcome: Place in Latymer/John Lyon/Merchants Taylor/Wilson's/QE Boys
